*Must be done in sets of 6 for optimum results! Price available on request.

Bio Therapeutic LED Light Treatments

These innovative treatments use the latest technology from the USA to visibly improve skin tone, texture, elasticity and assist in the management of acne. The red and blue light waves penetrate deeply into the skin to stimulate the ATP to produce more collagen and elastin, diminish redness and plump out prematurely aging and dehydrated skins.

- LED 30 min R370 each weekly sessions required for optimal results

Lamelle

A biotechnology researched based company with comprehensive ranges effectively designed to treat epidermal hyper pigmentation, management of acne and reduce the signs of ageing with Nobel prize winning growth factors.

- Large Area 7 min (10 sessions @ R2160) R240

Prices quoted are estimates only and an individual assessment is recommended to ascertain exact cost and treatment time

Lamprobe Treatments from R400

Hyper-keratinised lesions like Age spots, Keratosis, Fibromas, Solar Keratosis and Skin Tags, whether small or very large, raised on a stalk or flat, are all epidermal irregularities, meaning that they are raised above the skin and not rooted into the dermis like moles, so treatment to remove these unsightly blemishes is focused on the lesion affecting only the epidermis of the skin. The Lamprobe can safely and effectively be used on all skin colours creating flawless skin without the risk of hypo-pigmentation.

EPILFREE

Epilfree Is A Revolutionary Permanent Hair Reduction Solution That Works In Conjunction With A Regular Wax Routine. Epilfree Can Be Used On All Skin Types & All Hair Colours.

- Full Face R500
- Brow/Lip R150
- Chin R180
- Under Arm R300
- Bikini Sides R300
- Full Monty R600
